The foreign exchange market ignored announcement of further actual and prospective gold imporps from London. Call money opened at 8 per cent. Unfavorable conditions in the steel industry, arising chiefly from freight congestion and last weeks final rate of 10 per cent for call money, were largely responsible for the uneven tone of prices at the opening of today's stock market. There were a few features of strength, particularly Canadian Pacific, New York Central, Royal Dutch and General Chemical, in which gains ran from one to almost three points. These were neutralized, however, by leases of I to 2½ points in Mexican Petroleum. American Woolen, Baldwin Locomotive and Studebaker.
